

Bachelor of Science in Nursing (BSN) Post-Degree Curriculum Plan
No Summer Enrollment Required

This curriculum plan is designed for students who already have a baccalaureate degree in another field or an Associate of Science or an Associate of Arts from an Arkansas-supported college or university. The only courses the student is required to take are required pre-requisite courses for the nursing major and the nursing major courses. Many of the nursing pre-requisite courses may have been completed during the first degree. All courses with asterisks (*) must be completed with a minimum grade of "C" and are required for the nursing major. The 2nd number in each course represents the number of credit hours. If a program requirement can be met by more than one course, those options are listed and separated by "or." Students are responsible for meeting prerequisites for all courses. This is a sample curriculum plan and is for information only.

Required Pre-Requisite Courses Completed Prior to Admission

BIOL 1400*	Biology for Gen Ed ¹	PSYC 1300*	General Psychology
BIOL 2405*	Anatomy & Physiology ¹	SOC 1300*	Principles of Sociology
