

COMMUNITY/FAMILY HEALTH NURSE PLAN OF STUDY

This curriculum plan is designed for Registered Nurses (RNs) who are graduates of an accredited Bachelor of Science in Nursing (BSN) program and are seeking the Master of Science in Nursing (MSN) degree specializing in population and community health care. The Community/Family Health Nurse track is undergoing some revisions due to recent credentialing changes. Students interested in this track need to discuss the curriculum and credentialing options with Dr. Nelda New, Graduate Director. This track is designed for the working RN with all nursing courses offered online. Periodic visits to the Conway campus are required for each course. The 2nd number in each course represents the number of credit hours. All nursing courses use the prefix "NURS"; it is abbreviated in this document to add space. This is a sample curriculum plan and is for information only.

MSN-Community/Family Health Nurse Track

Fall Semester		Spring Semester		Summer Semester	
<u>Year 1</u>
