

Masters of Science in Occupational Therapy

By 2013 it is planned that the occupational therapy program will transition from the present Combined Bachelor and Masters of Science degree track to the Master of Science only. Applicants will therefore be required to have a Bachelors degree for admission into the program. Effective 2013 course prerequisites for entry into the program will be:

Course	Semester Credit Hours
Anatomy & Physiology (2 semester sequence)	8
Human Development	3
Abnormal Psychology	3
Statistics (Psychological/Sociological preferred)	3
Physics	4
Sociology or Anthropology	3
Medical Terminology	1
Total Prerequisite Credits	25

Program details will be available in the near future. See/contact the Occupational Therapy Program Advisor for details (cathya@uca.edu; 501-450-5017).
