Social Security Number (SSN): _____

PLEASE NOTE THE FOLLOWING:

SSNs are an integral part of the NSF Information System and assist in access and processing of FastLane related functions. Reasons NSF uses the SSN to identify individuals as registered users of FastLane:

1. An individual can be at more than one organization/institution;
2. The NSF PI table uses SSNs to identify Principal Investigators (PIs);
3. Individuals names can be changed or misspelled; and
4. Email address can be reused.

Within the FastLane project, no SSN will be displayed as part of a printed report and the SSN will be available through on-line screens only to FastLane users who have an established need to view the SSN, such as the Sponsored Programs Office.

THIS FORM WILL BE DESTROYED AFTER THE INFORMATION HAS BEEN SUBMITTED TO FASTLANE.

I authorize a Sponsored Programs representative to submit my information to NSF FastLane for registration to the system and inclusion on the NSF Database.
